The International Congress of the Korean Hip Society The 64th Annual Meeting

WELCOME MESSAGE

Greeting to all,

On behalf of the Korean Hip Society, it is my great pleasure and honor to extend a warm invitation to you regarding "International Congress of Korean Hip Society as the 64th Annual Meeting of the Korean Hip Society", which will be held on-line(http://www.khs.or.kr/abstract/2020_spring) from September, 4th to 5th, 2020.

Since its establishment in 1981, the Korean Hip Society has been playing outstanding roles for scientific exchange of knowledge as a result of passionate research and dedication of all members. Recently, clinical care for hip disease has also improved to a world-class level, and many foreign patients are visiting Korea and undergoing hip surgery. In the future, we are looking forward to advancing more not only in basic research, but also in clinical practice and cutting-edge high technology with valuable and fruitful cooperation with international orthopedic institutes and members.

"International Congress of Korea Hip Society" was organized based on the efforts of the Korean Hip Society to cooperate with international hip specialists. I believe that you will enjoy active research presentations and constructive discussions. In particular, famous orthopaedic surgeons around the world have been invited to share their novel experiences in this year's conference.

Your continued interest and active participation will be highly appreciated.
